

## A Writers Guide to Style: How to make your fiction memorable

A writer's style is one of the three key factors in writing successful fiction. A distinctive and effective style of writing can be a valuable asset in making your fiction more memorable. The aims of this book are therefore to enable a writer to identify the strengths and weaknesses of her present writing style; to suggest ways in which that style might be improved; and to show how style can be used to reveal character and thus heighten emotion. A Writers Guide to Style is one of Michael Allens series of seven practical, down-to-earth guides for writers. This one will be most relevant to those who write fiction, whether short stories or novels, but non-fiction writers will also find it useful. Michael Allens first novel was published over fifty years ago (1963). He is the author of numerous other novels and short stories (some written under pen-names) which have variously been published in hardback, paperback, and ebook editions, in the UK, USA, France and Denmark. He is also the author of about a dozen non-fiction books.
