

Antarctica Wildlife 5th (Bradt Guides)

Both a beautiful and practical guidebook, Bradts Antarctica Wildlife has remained a perennial favourite with cruise voyagers to this remarkable continent and a book suitable for natural history lovers to dip into. This guide covers Antarctica's major land, sea and air species. Each mammal, bird or creature has been illustrated with a fine original watercolor by Dafila Scott, with a concise but descriptive passage by high-profile natural historian, Tony Soper. An ideal gift or souvenir for travelers on tour, it also makes a perfect armchair read and would grace a coffee table or library collection.
