

## How to Enjoy Writing: A Book of Aid and Comfort

This book was written by my personal favorite author, Isaac Asimov and his wife, Janet. It purports to offer aid and comfort to the aspiring author, but in fact does neither. This is a loving collection by wife Janet of Isaacs essays and quotations. There are only 2 chapters written by Isaac himself. It is a useful book if you want a peek inside the mind of a genius writer. However, for us mere mortals, it offers little in the way of instruction on how to write. The first 4 chapters give the most beneficial albeit cursory advice on how to approach writing. The rest is anecdotal information on what its like to be a best selling author and the troubles you might face. If youre a beginning author these are the problems you dream of, but not the problems you need to solve to sell your first book.
