

# Monster Manual IV (Dungeons & Dragons d20 3.5 Fantasy Roleplaying) (v. 4)

Monster Manual IV is the most recent volume in the best-selling Monster Manual line. Sure to be popular with both Dungeonmasters and players, this supplement to the D&D game provides descriptions for a vast array of new creatures. Each monster is illustrated and utilizes a new statblock format that facilitates faster gameplay. In addition, each monster gets more pages than used in previous supplements to detail sample encounters and pregenerated treasure hordes. Also included are details on how to incorporate creatures in a Forgotten Realms or Eberron campaign. This product is tied to 2006's Year of the Dragon theme, which will be the target of marketing from RPGs, novels, and miniatures brands.
