

Yearbook of Fishery Statistics (FAO Yearbook: Fishery Statistics)

This is a compilation of annual statistical data on production and foreign trade of fishery commodities for all countries and territories of the world. It includes data series on production of processed and preserved fishery products in terms of quantity and on imports and exports of fishery products in terms of quantity and value. The book also includes statistics of apparent consumption of fish and fishery products, the value of world catches, the disposition of fishery production and direction of trade for selected countries.
