

## Heretics and Orthodoxy

Heretics is a collection of 20 essays originally published by G.K. Chesterton in 1905 Chapter 1: Introductory Remarks on the Importance of Orthodoxy In his first essay, Chesterton describes his understanding of the words Orthodox and Heretic as they apply to, and have changed in, the modern period. Chesterton argues that in modernity, The word orthodoxy not only no longer means being right; it practically means being wrong. He continues to write that society no longer tolerates a mans life philosophy or religion, yet is increasingly absorbed in art for arts sake. Chesterton identifies this trend to replace ideological substance with vagueness and criticizes popular writers, public figures, politicians, and the like for proclaiming a gospel of silence when moral and philosophical direction is needed. Quotes Orthodoxy (1908) is a book by G. K. Chesterton that has become a classic of Christian apologetics. Chesterton considered this book a companion to his other work, Heretics. In the books preface Chesterton states the purpose is to attempt an explanation, not of whether the Christian faith can be believed, but of how he personally has come to believe it. In it, Chesterton presents an original view of Christian religion. He sees it as the answer to natural human needs, the answer to a riddle in his own words, and not simply as an arbitrary truth received from somewhere outside the boundaries of human experience. The book was written when Chesterton was an Anglican. He converted to Catholicism 14 years later. The title, Orthodoxy, is meant to avoid such sectarian questions.
