

Comings and Goings (Goings On) (Volume 2)

Having fled the U.K. for Paris less than six months ago, Helen Pawson has seldom left her apartment ...until two houseguests arrive for a one week visit. Having planned a busy schedule for their stay, Helen is left reeling when one of her visitors has an alternative agenda. The next couple of days are about to turn into a nightmare for two of them ...and it is during this week that Andre introduces himself to Helen. After her guests have departed for home, Helen is forced to accept that it is time to take control of her life. She can no longer continue to stay holed up in her apartment wallowing in her self-indulgent grief ...she needs a life and she needs sex! It has been months since she last had sex and that need has been triggered. Switching on her cell-phone (charged overnight, due to its lack of use since arriving in France), she listens, in particular, to three or four intriguing voicemails. After discarding those of no interest, she listens once more to the ones she's saved. As she returns the calls, she is unaware of the significant changes about to take place in her life but will she listen to what Andre has to say? Which direction is Helen's life about to take? A wealthy lady, she doesn't need to work but will she have to work, to help keep her mental illness, her O.C.D., at bay? But Helen must also be on her guard, as one or two people around her are not what they seem
