

Life: Challenges and Solutions

Written by the Spirit Joana de Angelis through the mediumship of Divaldo Franco, this book is resplendent with liberating concepts. Drawing on Jungian and transpersonal psychology, this Spirit messenger of Immortality addresses the human condition in light of Spiritist psychology, aiming to mitigate the problems and difficulties of physical existence, preparing the spirit for its future destiny. Sensitive topics are treated with grace and a straightforward approach to understanding the apparent enigmas regarding reincarnation, proposing solutions for difficulties surrounding relationships, behavior and life itself. The wise and profound concepts reaching the reader contained in this book as well as in the entire Joanna de Angelis Psychological Series will never be forgotten.
