

Sabotage (Don Pendletons Mack Bolan)

A rash of killings among returning American soldiers puts Mack Bolan on the front line of a conspiracy to destabilize the U.S. military at home and abroad. His Russian-born, American-made enemy has infiltrated and co-opted the country's largest radical peace organization, spurring waves of antiwar protests and turning members into mercenaries willing to use violence against veterans of the Middle East conflicts. Media mogul Yuri Trofimov has the power and influence to deliver a propaganda campaign via television straight into America's living room and enough money to buy hired guns and the cooperation of a corrupt congressman. Despite the sensitive nature of the crisis and the determination of the U.S. government to stop the atrocities, Bolan does what a dedicated warrior does best: search and destroy.
