

al Juyushi: A Vision of the Fatemiyeen

Al Jameal Juyushi was built by Amir al Juyush, Badr al Jamali (RA) in the year 478H/1085AD. This Fatemi masjid was built on an edge of the Muqattam hills overlooking the city of al Qahera. We have discussed al Juyushis historical significance in the context of the Fatemi Dawah. It reflects the eminence of the Aimatat Fatemiyeen (AS), their Doat and represents their victories. Imam al Mustansir Billah (AS) guided his Doat for the preparation of satr. The Imams (AS) fata constructed the Masjid during this period leading up to satr. Our research discusses the significance of al Juyushi and its architecture, its recent restoration, the Fatemi Tayyebi communitys replication of its designs in their current architecture.
