

## Remember, Remember (The Fifth of November): The History of Britain in Bite-Sized Chunks

Remember, Remember is a history of Britain in bitesize chunks, containing all of the important dates, people and events that we should know, reminding us of what weve forgotten from school and perhaps teaching us something new. Go back in time to: sneer at Bad King John as he is forced to sign the Magna Carta; suffer the agonies of the black death; charge with Henry V against the French at Agin court; see the birth of the Industrial Revolution; watch the coronation of the nineteen-old-princess who gave us the term Victorian; and take heart from the courage and endurance of the men who fought and endured the horrors of both world wars. Concise, authoritative yet wonderfully entertaining, Remember, Remember makes history interesting and accessible for everyone once again.
