

Restoring the Republic: A Clear, Concise, and Colorful Blueprint for Americas Future

Our republic is imperiled. At a time of unprecedented government spending, historic deficits, and gathering foreign threats, America stands at a crossroads. We can either reassert fiscal discipline and reduce the government to the size envisioned by our Founders, or we can continue on the current path of spending ourselves into oblivion. In Restoring the Republic, Republican Congressman Devin Nunes lays out a detailed agenda for solving the menacing problems that threaten our nations future. Born and raised in the breadbasket of California, thirty-six-year-old Nunes has seen firsthand how the convergence of big government, big business, and the radical Left has wreaked havoc on entire communities, turning the once-thriving farmland of the San Joaquin Valley into a blighted desert reminiscent of the Dust Bowl. Now the same forces are doing their damage on a national level, threatening Americas very foundation. But Nunes has a plan to stop them.
