

Women on Sex: Women of All Ages Talk Intimately About Every Aspect of Their Sexual Experiences

This volume tells the reader what the modern woman thinks about sex and provides the answers to the questions they want most to ask: do you tell your partners honestly what they're like in bed; do you enjoy giving oral sex; do you enjoy masturbation, and what do you do; how often do you have sex when you don't want to; what could men do to help you enjoy sex more; have you ever wanted to have a sexual experience with another woman; have you become more sexual as you've got older; and why do 57 percent of women have affairs?
