

## Emaho Tibet!: Blessings from the Land of the Snows

This book is a reverberant homage to the country of Tibet which inhabits and inspires the author. It is also a living testimony to the pilgrims who ambulate this holy land, a circumstantiation of their ardent faith, and of their desire to be free from the samsaric cycles and of the karma that perpetually propels and nourishes the Dharma Path of the earths ever-recurrent planetary rounds. More importantly, this volume becomes for those who peruse it, a powerful guide for meditation, reflection and comprehension for the different stages of our evolution. Moreover, it shows the path towards the Realization of what we are called to become as beings who are Divinely human. Behind each of the authors visionary picture-words, is occulted a Truth which if understood, can reveal the path to follow in order to attain the Perfection of our Being, as well as the realization of a Divine humanity that seeks purely to express itself and to grow maturity within each one of us.
