

The Collected Works, Vol. 5 (Classic Reprint)

The enlightened lover of satire cares little of whom it was written, but much for what is said, and more for how it is said. No one but critics and commentators troubles himself as to the personality of the always obscure hero of *The Dunciad* and the nobodies distinguished by the pens of Swift, Butler, Wolcott and the other masters of English satire; yet the work of these men is no less read than it was in their day. The same is true of Aristophanes, Horace and the other ancient censors of men and manners. Regarding the repeated appearance of certain offenders in the skits and drolleries of this book, I can only say that during the considerable period covered by the authors efforts to reclaim them they manifested a deplorable, and doubtless congenital, propensity to continuance in sin.
