

The Other Side of Everest: Climbing the North Face Through the Killer Storm

This dramatic tale of the storm that hit Mount Everest in the spring of 1996 will resonate with anyone fascinated by life on the outer edge of physical and psychological limits. Before the killer storm subsided, some climbers reached the summit, others abandoned their quest, and twelve people froze to death. Matt Dickinson, a filmmaker and a novice climber, chose that fateful May for his first ascent of Everest, up the treacherous North Face. His story is one of discovery, tragedy, and personal triumph--told, literally, from the other side of the worlds tallest peak. It will be cherished by all readers eager to experience adventure, from their armchairs to their own base-camp bivouac. From the Trade Paperback edition.
