

To Love Or Not To Love

Love is a beautiful thing, in most cases. In this case, Shontelle Lee was in more than a love triangle. For a girl that didnt date, she had more than enough people falling head over heels for her. She was a young girl who didnt know her self worth, didnt know how a relationship worked, and needed a helping hand at finding out the ropes to love. She tried her best to be someone elses definition of perfect, losing herself along the way- and almost her life.
