

Twice-Told Tales, Vol. 1 (Classic Reprint)

Gugers, To this total lack of sympathy, at the age when his mind would naturally have been most effervescent, the Public owe it (and it is certainly an effect not to be regretted, on either part), that the Author can show nothing for the thought and industry of that portion of his life, save the forty sketches, or thereabouts, included in these Volumes. Much more, indeed, he wrote; and some very small part of it might yet be rummaged out (but it would not be worth the trouble) among the dingy pages of fifteen- or twenty-year-old periodicals, or within the shabby Morocco covers of faded Souvenirs. The remainder of the works, alluded to, had a very brief existence, but, on the score of brilliantly, enjoyed a fate vastly superior to that of their brotherhood, which succeeded in getting through the press. In a word, the Author burned them without mercy or remorse, and, moreover, without any subsequent regret, and had more than one occasion to marvel that such very dull stuff, as he knew his condemned manuscripts to be, should yet have possessed inflammability enough to set the chimney on fire! After a long while, the first collected volume of the Tales was published. By this time, if the Author had ever been greatly tormented by literary ambition (which he does not remember or believe to have been the case), it must have perished, beyond resuscitation, in the dearth of nutriment. This was fortunate; for the success of the volume was not such as would have gratified a craving desire for notoriety.
