

United States of Apocalypse

When World War 3 erupts on American soil, it is up to some less than likely heroes to band together and stand tall against any and all comers as a once proud nation is brought to her knees. Cowardly terrorist attacks and indifferent global communities have isolated America as she spirals into a desperate bid for survival. Follow Darlene Bobich and her group on the West Coast along with Michael Talbot on the East Coast as they do everything in their power to thwart those who would take away everything that they and all of us are.
