

God Psychosis

Godworship is a contagious form of insanity that is within 300 years of exterminating the human race. God addicts are not committing anthropocide, by environmental pollution and overpopulation, out of malice. Rather, they are convinced that the world is coming to an end within their lifetimes, at which time a deus ex machina is going to carry victims of its mind-AIDS off to a Cloud Cuckoo Land in the sky, and sentence the sane, intelligent and educated minority to be tortured with flamethrowers for eternity in an underworld Auschwitz that can only be described as a sadists dream. No one who reads a Tanakh, Bible or Koran with his brain in gear can fail to recognize that the character called God in English mistranslations is the most sadistic, evil, mass-murdering psychopath in all fiction, and that those allegedly holy books are the most obscene paeans to evil ever written, with Mein Kampf and the Left Behind series their only serious competitors. Be warned. Unless humankind exterminates religion within 150 years, there will not be a human being left on earth in 300 years.
